

## KAMI E. QUINN

Kami Quinn has broad experience recovering insurance proceeds for mass tort liability, directors' and officers' liability, financial fraud, property damage and business interruption primarily in complex, multi-party disputes. Kami has also advised many clients with respect to strategies for insurance recovery in asbestos-related bankruptcies. Kami's practice emphasizes early evaluation of litigation risk and consensual resolutions where possible. Indeed, in many of Kami's cases insurers have been persuaded to rescind coverage denials or pay claims without the need for litigation. Kami also regularly evaluates complex insurance portfolios to assist clients in avoiding future disputes with carriers and to assure that the coverage potentially available is consistent with the client's understanding of the risk transferred. Kami has also provided advice and counseling to a number of clients (typically potential transferors or transferees of insurance coverage) seeking to value disputed or potentially disputed insurance assets.
