Gilbert Heintz & Randolph LLP (GHR) was named as a **"hidden gem"** in the *BTI Power Rankings: The BTI Client Relationship Scorecard for Law Firms, 2006* (published by The BTI Consulting Group). The rankings were based on interviews with large and Fortune 1000 clients. In the rankings, GHR was listed as a firm whose excellence is underestimated by the marketplace and its peers. Clients who mentioned GHR believe they have found an excellent law firm that few others know about—or don't know enough about. Clients see the firm as special and a well-kept secret that brings added value to the law firm/client relationship.

For this study, BTI interviewed 376 corporate counsel at three types of companies: Fortune 1000 organizations, large privately held companies and major financial services firms. They conducted the interviews over a 15-month time span ending in late 2005.
